DEFINITION OF THE CONCEPT OF ORIGINATING PRODUCTS
AND
METHODS OF ADMINISTRATIVE CO-OPERATION
(REFERRED TO IN ARTICLE 3)

TITLE I
GENERAL PROVISIONS

Article 1
Definitions

For the purposes of this Annex:

- (a) "manufacture": means any kind of working or processing, including assembly or specific operations;
- (b) "material": means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (c) "product": means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (d) "goods": means both materials and products;

- (e) "non-originating goods": means products or materials which do not qualify as originating under this Annex;
- (f) "customs value": means the calculated value determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade 1994 (WTO Agreement on Customs Valuation);
- (g) "ex-works price": means the price paid for the product ex-works to the manufacturer in Mexico or the Community in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes returned or repaid when the product obtained is exported;
- (h) "value of materials": means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in Mexico or the Community;
- (i) "value of originating materials": means the value of such materials as defined in subparagraph (h) applied *mutatis mutandis*;
- (j) "chapters" and "headings": means the chapters and the headings (four-digit codes) used in the nomenclature of the Harmonised System ;
- (k) "classified": refers to the classification of a product or material under a particular heading;

- (l) "consignment": means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (m) "Parties": means the United Mexican States (Mexico) and the European Community (Community);
- (n) "territories": includes territorial waters;
- (o) "Harmonised System": means the Harmonised Commodity Description and Coding System in force, including its general rules and legal notes of section, chapter, heading and subheading, as adopted by the Parties in their respective laws;
- (p) "competent governmental authority": means in the case of Mexico, the designated authority within the "Secretaría de Comercio y Fomento Industrial" (Ministry of Trade and Industrial Development), or its successor.

TITLE II
DEFINITION OF THE CONCEPT "ORIGINATING PRODUCTS"

Article 2
General requirements

1. For the purpose of this Decision, the following products shall be considered as originating in the Community:
 - (a) products wholly obtained in the Community within the meaning of Article 4;
 - (b) products obtained in the Community incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the Community within the meaning of Article 5.

2. For the purpose of this Decision, the following products shall be considered as originating in Mexico:
 - (a) products wholly obtained in Mexico within the meaning of Article 4;
 - (b) products obtained in Mexico incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Mexico within the meaning of Article 5.

Article 3

Bilateral cumulation of origin

1. Materials originating in the Community shall be considered as materials originating in Mexico when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 6(1).
2. Materials originating in Mexico shall be considered as materials originating in the Community when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 6(1).

Article 4

Wholly obtained products

1. The following shall be considered as wholly obtained in the Community or Mexico:
 - (a) mineral products extracted from their soil or from their seabed;
 - (b) vegetable products harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;

- (e) products obtained by hunting or fishing conducted there;
- (f) products of sea fishing and other products taken from the sea outside the territorial waters of the Community or Mexico by their vessels;
- (g) products manufactured aboard their factory ships, exclusively from products referred to in subparagraph (f);
- (h) used articles collected there fit only for the recovery of raw materials, including used tires fit only for retreading or for use as waste, provided that these articles are under the supervision of the customs authorities of the importing country;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) products extracted from the seabed or beneath the seabed outside their territorial waters, provided that they have sole rights to exploit such seabed; and
- (k) goods produced there exclusively from the products specified in subparagraphs (a) to (j).

2. The terms "their vessels" and "their factory ships" in paragraph 1 (f) and (g) shall apply only to vessels and factory ships:

- (a) which are registered or recorded in Mexico or in a Member State of the Community;

- (b) which sail under the flag of Mexico or of a Member State of the Community;
- (c) which are owned to an extent of at least 50 per cent by nationals of Member States of the Community or of Mexico, or by a company with its head office in one of the Member States of the Community or Mexico, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of Member States of the Community or of Mexico and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those states or Mexico or to public bodies or nationals¹ of the Member States of the Community or of Mexico;
- (d) of which the master and officers are nationals of Member States of the Community or of Mexico; and
- (e) of which at least 75 per cent of the crew are nationals of Member States of the Community or of Mexico.

Article 5

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in Appendix II are fulfilled.

¹ For purposes of this paragraph the term "nationals" includes companies.

The conditions referred to above indicate, for all products covered by this Decision, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, the products which are not wholly obtained and which are listed in Appendix II (a) shall be considered to be sufficiently worked or processed, for the purposes of Article 2, when the conditions set out in the list in that Appendix are fulfilled.

The provisions of this paragraph shall apply for the periods or to the products listed in Appendix II (a).

3. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:
 - (a) their total value does not exceed 10 per cent of the ex-works price of the product;
 - (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System. Appendix I shall apply to these products.

4. Paragraphs 1 to 3 shall apply except as provided in Article 6.

Article 6

Insufficient working or processing operations

1. Notwithstanding paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 5 are satisfied:
 - (a) operations to ensure the preservation of products in good condition during transport and storage (ventilation, spreading out, drying, freezing, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);
 - (b) dilution with water or another substance that does not materially alter the characteristics of the product;
 - (c) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making-up of sets of articles), washing, painting, husking or unshelling, removing of grains and cutting up;

- (d) (i) changes of packaging and breaking up and assembly of packages;
- (d) (ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards, etc., and all other simple packaging operations;
- (e) affixing marks, labels and other like distinguishing signs on products or their packaging;
- (f) cleaning, including the removal of oxide, oil, paint or other coverings;
- (g) simple mixing of products, whether or not of different kinds, where one or more components of the mixtures do not meet the conditions laid down in Appendix II to enable them to be considered as originating in the Community or Mexico;
- (h) simple assembly of parts to constitute a complete product;
- (i) a combination of two or more operations specified in subparagraphs (a) to (h); and
- (j) slaughter of animals.

2. All the operations carried out in either the Community or Mexico on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 7
Unit of qualification

1. The unit of qualification for the application of the provisions of this Annex shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

Accordingly, it follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification.
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Annex.
2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 8

Accounting segregation

1. Where there is considerable cost involved in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the competent governmental authority or the customs authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method to be used for managing such stocks.
2. This method must be able to ensure that, for a specific reference –period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained if there had been physical segregation of the stocks.
3. This method shall be recorded and maintained in accordance with the General Accepted Accounting Principles applicable in the territory of the Party in which the product is manufactured.
4. The competent governmental authority or the customs authorities may grant such authorisation, subject to any conditions deemed appropriate.
5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the competent governmental authority or the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The competent governmental authority or the customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Annex.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 11
Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment, including goods to be used for their maintenance;
- (c) machines, tools, dies and moulds; and
- (d) any other goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III
TERRITORIAL REQUIREMENTS

Article 12
Principle of territoriality

1. The conditions set out in Title II relative to the acquisition of originating status must be fulfilled without interruption in Mexico or the Community.

2. If originating goods exported from Mexico or the Community to another country are returned, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the goods returned are the same goods as those exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 13

Direct transport

1. The preferential treatment provided for under this Decision applies only to products satisfying the requirements of this Annex, which are transported directly between Mexico and the Community. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.
2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:
 - (a) a single transport document covering the passage from the exporting country through the country of transit; or

- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;
and
 - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any other substantiating documents.

TITLE IV
DRAWBACK OR EXEMPTION

Article 14

Prohibition of drawback of, or exemption from, import duties

1. Non-originating materials, used in the manufacture of products originating in the Community or in Mexico within the meaning of this Annex for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in the Community or Mexico to drawback of, or exemption from, import duties.

2. For the purpose of this Article, the term “import duties” shall include customs duties, as defined in Article 3 (8) of the Decision, and anti-dumping and countervailing duties applied in conformity with Article 14 of the Decision .
3. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of import duties applicable in the Community or Mexico to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.¹
4. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all import duties applicable to such materials have actually been paid.
5. The provisions of paragraphs 1 to 3 shall apply also to the packaging within the meaning of Article 7(2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10, when such items are non-originating.
6. The provisions of paragraphs 1 to 4 shall apply only to exported products which benefit from any preferential tariff treatment in the other Party. Furthermore, they shall not preclude the application of an export-refund system for agricultural products.
7. This Article shall apply from 1 January 2003.

¹ The Parties agree that payment of import duties can be deferred until after the final product is exported so that the final destination of the product can be known by authorities.

TITLE V
PROOF OF ORIGIN

Article 15
General Requirements

1. Products originating in the Community shall, on importation into Mexico and products originating in Mexico shall, on importation into the Community benefit from this Decision upon submission of either:
 - (a) a movement certificate EUR.1, a specimen of which appears in Appendix III; or
 - (b) in the cases specified in Article 20 (1), a declaration, the text of which appears in Appendix IV, given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified (hereinafter referred to as the 'invoice declaration').

2. Notwithstanding paragraph 1, originating products within the meaning of this Annex shall, in the cases specified in Article 25, benefit from this Decision without it being necessary to submit any of the documents referred to above.

Article 16

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities or the competent governmental authority of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative.
2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimen of which appear in Appendix III. These forms shall be completed in one of the languages in which this Decision is drawn up and in accordance with the provisions of the domestic law of the exporting country. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any lines blank. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description and the empty space must be crossed through.
3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities or the competent governmental authority of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfillment of the other requirements of this Annex.
4. A movement certificate EUR.1 shall be issued by the customs authorities or competent governmental authority if the products concerned can be considered as products originating in Mexico or the Community and fulfill the other requirements of this Annex.

5. The issuing customs authorities or the competent governmental authority shall take any steps necessary to verify the originating status of the products and the fulfillment of the other requirements of this Annex. For this purpose, they shall have the right to request for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities or competent governmental authority shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.
7. A movement certificate EUR.1 shall be issued by the customs authority or the competent governmental authority and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 17

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 16(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

- (b) it is demonstrated to the satisfaction of the customs authorities or the competent governmental authority that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.
2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.
3. The customs authorities or the competent governmental authority may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file, and will be accepted by the customs authority of the importing country, in accordance with the domestic law of each Party, as set out under Appendix V.
4. Movement certificates EUR.1 issued retrospectively must be endorsed with one of the following phrases:
- "NACHTRÄGLICH AUSGESTELLT", "DELIVRE A POSTERIORI", "RILASCIATO A POSTERIORI", "AFGEGEVEN A POSTERIORI", "ISSUED RETROSPECTIVELY", "UDSTEDT EFTERFØLGENDE", "ΕΚΔΟΘΕΝ ΕΚ ΤΩΝ ΥΣΤΕΡΩΝ", "EXPEDIDO A POSTERIORI", "EMITIDO A POSTERIORI", "ANNETTU JÄLKIKÄTEEN", "UTFÄRDAT I EFTERHAND".
5. The endorsement referred to in paragraph 4 shall be inserted in the 'Remarks` box of the movement certificate EUR.1.

Article 18

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities or the competent governmental authority which issued it for a duplicate made out on the basis of the export documents in their possession.
2. The duplicate issued in this way must be endorsed with one of the following words:

"DUPLIKAT", "DUPLICATA", "DUPLICATO", "DUPLICAAT", "DUPLICATE",
"ΑΝΤΙΓΡΑΦΟ", "DUPLICADO", "SEGUNDA VIA", "KAKSOISKAPPALE".
3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks` box of the duplicate movement certificate EUR.1.
4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 19

Issue of movement certificates EUR.1 on the basis of proof of origin issued or made out previously

1. It shall at any time be possible to replace one or more movement certificates EUR.1 by one or more other certificates provided that this is done by the customs office or the competent governmental authority responsible for controlling the goods.

2. The replacement certificate shall be regarded as a definitive movement certificate EUR.1 for the purpose of the application of this Annex, including the provisions of this Article.
3. The replacement certificate shall be issued on the basis of a written request from the re-exporter, after the authorities concerned have verified the information supplied in the applicant's request.

Article 20

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 15(1)(b) may be made out:
 - (a) by an approved exporter within the meaning of Article 21, or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed 6 000 euro.
2. An invoice declaration may be made out if the products concerned can be considered as products originating in Mexico or the Community and fulfill the other requirements of this Annex.
3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities or the competent governmental authority of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfillment of the other requirements of this Annex.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Appendix IV, using one of the linguistic versions set out in that Appendix and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.
5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 21 shall not be required to sign such declarations provided that he gives the customs authorities or the competent governmental authority of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented to the customs authority of the importing country no longer than the period established in the domestic law of each Party, as set out under Appendix V.

Article 21

Approved exporter

1. The customs authorities or the competent governmental authority of the exporting country may authorise any exporter who makes frequent shipments of products under this Decision to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities or the competent governmental authority all guarantees necessary to verify the originating status of the products as well as the fulfillment of the other requirements of this Annex.

2. The customs authorities or the competent governmental authority may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities or the competent governmental authority shall grant to the approved exporter an authorisation number which shall appear on the invoice declaration.
4. The customs authorities or the competent governmental authority shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities or the competent governmental authority may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfill the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 22

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 23

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Annex.

Article 24

Import by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2 (a) of the Harmonised System falling within Sections XVI and XVII or heading Nos 7308 and 9406 of the Harmonised System are imported by installments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first installment.

Article 25

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Annex and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is intended.
3. Furthermore, the total value of these products shall not exceed 500 euro in the case of small packages or euro 1 200 in the case of products forming part of travellers' personal luggage.

Article 26

Supporting documents

The documents referred to in Articles 16(3) and 20(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in Mexico or the Community and fulfill the other requirements of this Annex may consist of the following *inter alia*:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in Mexico or the Community where these documents are used, as it shall be provided in its domestic law;
- (c) documents proving the working or processing of materials in Mexico or the Community, issued or made out in Mexico or the Community where these documents are used, as it shall be provided in its domestic law; or
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in Mexico or the Community in accordance with this Annex.

Article 27

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 16(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 20(3).
3. The customs authorities or the competent governmental authority of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 16(2).

4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 28

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 29

Amounts expressed in euro

1. Amounts in the national currency of the exporting country equivalent to the amounts expressed in euro in this Annex shall be fixed by the exporting country and communicated to importing countries through the European Commission.
2. When the amounts exceed the corresponding amounts fixed by the importing country, the latter shall accept them if the products are invoiced in the currency of the exporting country. When the products are invoiced in the currency of another Member State of the Community or of Mexico, the importing country shall recognise the amount notified by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that national currency of the amounts expressed in euro as at the first working day of June 2000.

4. The amounts expressed in euro in this Annex and their equivalents in the national currencies of the Member States of the Community and Mexico shall be reviewed by the Joint Committee at the request of Mexico or the Community. When carrying out this review, the Joint Committee shall ensure that there will be no decrease in the amounts to be used in any national currency and shall furthermore consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro in this Annex.

TITLE VI
ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 30
Mutual assistance

1. The customs authorities of Mexico and the Members States of the Community or the competent governmental authority of Mexico shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities or the competent governmental authority responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Annex, Mexico and the Community shall assist each other, through their respective administrations, to verify the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 31

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfillment of the other requirements of this Annex.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities or the competent governmental authority of the exporting country giving, where appropriate, the reasons for the inquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities or the competent governmental authority of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in Mexico or the Community and fulfil the other requirements of this Annex.
6. If in cases of reasonable doubts there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities are entitled, save in exceptional circumstances, to refuse to grant preferential treatment.

Article 32

Dispute settlement

1. Disputes arising in relation to the verification procedures pursuant to Article 31 which cannot be settled between the customs authorities requesting a verification and the customs authorities or the competent governmental authority responsible for carrying out such verification, or which raise a question as to the interpretation of this Annex shall be submitted to the Special Committee on Customs Co-operation and Rules of Origin.
2. Disputes between the importer and the customs authorities of the importing country shall be governed by the legislation of that country.

Article 33
Confidentiality

All information which is by nature confidential or which is provided on a confidential basis shall be covered by the obligation of professional secrecy, in accordance with the respective laws of each party. It shall not be disclosed by the customs authorities or competent governmental authority without the express permission of the person or authority providing it; the communication of information shall be permitted where the customs authorities or competent governmental authority may be obliged or authorised to do so pursuant to the provisions in force, particularly in respect of data protection, or in connection with legal proceedings.

Article 34
Penalties

Penalties shall be imposed on any person who draws up or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 35
Free zones

1. Mexico and the Community shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in Mexico or the Community are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new EUR.1 certificate at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Annex.

TITLE VII
CEUTA AND MELILLA

Article 36
Application of the Annex

1. The term "Community" used in Article 2 does not cover Ceuta and Melilla.
2. Products originating in Mexico, when imported into Ceuta or Melilla shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the Community under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities. Mexico shall grant to imports of products covered by the Decision and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.
3. This Annex shall apply *mutatis mutandis* to products originating in Ceuta and Melilla, subject to the special conditions set out in Article 37.

Article 37
Special conditions

1. Provided that they have been transported directly in accordance with the provisions of Article 13, the following shall be considered as:
 - (1) products originating in Ceuta and Melilla:
 - (a) products wholly obtained in Ceuta and Melilla;
 - (b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 5; or that
 - (ii) those products are originating in Mexico or the Community within the meaning of this Annex, provided that they have been submitted to working or processing which goes beyond the insufficient working or processing referred to in Article 6(1).
 - (2) products originating in Mexico:
 - (a) products wholly obtained in Mexico;

- (b) products obtained in Mexico, in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 5; or that
 - (ii) those products are originating in Ceuta and Melilla or the Community within the meaning of this Annex, provided that they have been submitted to working or processing which goes beyond the insufficient working or processing referred to in Article 6(1).

2. Ceuta and Melilla shall be considered as a single territory.
3. The exporter or his authorised representative shall enter "Mexico" and "Ceuta and Melilla" in Box 2 of movement certificates EUR.1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.
4. The Spanish customs authorities shall be responsible for the application of this Annex in Ceuta and Melilla.

TITLE VIII
FINAL PROVISIONS

Article 38
Amendments to the Annex

The Joint Committee may amend this Annex.

Article 39
Explanatory Notes

1. The Parties shall agree "Explanatory Notes" regarding the interpretation, application and administration of this Annex within the Special Committee on Customs Cooperation and Rules of Origin.
2. The Parties shall implement simultaneously the Explanatory Notes so agreed, in accordance with their respective internal procedures.

Article 40
Goods in transit or storage

The provisions of this Decision may be applied to goods which comply with the provisions of this Annex and which on the date of entry into force of this Decision are either in transit or are in Mexico or the Community or, in temporary storage in bonded warehouse or in free zones, subject to the submission to the customs authorities of the importing country, within four months of the date, of a certificate EUR.1 endorsed retrospectively by the customs authorities or the competent governmental authorities of the exporting country together with the documents showing that the goods have been transported directly.

Introductory Notes to the List in Appendixes II and II (a)

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 of Annex III.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column contains the Harmonised System heading number or chapter number and the second column contains the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by the letters "ex", this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which in the Harmonised System are classified under such headings of the chapter, or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

- 3.1. The provisions of Article 5 of Annex III concerning products having acquired originating status which are used in the manufacture of other products apply, regardless of whether this product has been manufactured in the same factory or in another factory in Mexico or in the Community.

Example:

An engine of heading No. 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent¹ of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No. ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No. ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in Mexico or the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Thus if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No. ____..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.
- 3.4. The unit of qualification for the determination of origin is the particular product as classified under the nomenclature of the Harmonised System. It follows that packaging classified with the goods, e.g. the boxes in which a product is packed for presentation for retail sale, must be included as part of the product when determining the origin of the product. Packaging designed only for the transportation of the goods to the Party of importation shall be disregarded.

¹ See Note 11 Appendix II (a).

Example:

Computers of heading No. 8471 have a rule where the value of the non-originating materials used does not exceed 40 per cent of the ex-works price. They are packed in boxes for retail sale and are exported in wooden containers with 10 computers in each container. In order to determine whether the computers comply with the percentage given for the product, the value of the wooden containers should be disregarded. However, the value of the retail packaging shall be included.

- 3.5. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading Nos. 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

- 3.6. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule (See also Note 6.2 below in relation to textiles).

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

The rule for prepared foods of heading No. 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

Example:

In the case of an article of apparel of ex Chapter 62¹ made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth- even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is the fibre stage.

¹ See Note 6 Appendix II (a).

- 3.7. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

- 4.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed, but not spun.
- 4.2. The term “natural fibres” includes horsehair of heading No. 0503, silk of heading Nos. 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos. 5101 to 5105, the cotton fibres of heading Nos. 5201 to 5203 and the other vegetable fibres of heading Nos. 5301 to 5305.
- 4.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos. 5501 to 5507.

Note 5:

- 5.1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not apply to any basic textile materials used in the manufacture of this product, which, taken together, represent 8 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).
- 5.2. However, the tolerance mentioned in Note 5.1 may only apply to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
- products of heading No. 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading No. 5605.

Example:

A yarn of heading No. 5205 made from cotton fibres of heading No. 5203 and synthetic staple fibres of heading No. 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 8 per cent of the yarn.

Example:

A woollen fabric of heading No. 5112 made from woollen yarn of heading No. 5107 and synthetic yarn of staple fibres of heading No. 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 8 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No. 5802 made from cotton yarn of heading No. 5205 and cotton fabric of heading No. 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No. 5205 and synthetic fabric of heading No. 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 8 per cent in respect of this yarn.
- 5.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

- 6.1. In the case of those textile products which are marked in the list by a footnote referring to this note, textile materials, with the exception of linings and interlinings, which do not satisfy the rule set out in the list in column 3 for the made-up product concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials which are not classified in Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that for a particular textile item, such as trousers, yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified in Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage rule applies, the value of materials which are not classified in Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of heading Nos. ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:
 - (a) vacuum distillation;
 - (b) redistillation by a very thorough fractionation process¹;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerization;
 - (h) alkylation;
 - (i) isomerization.

¹ See Introductory note 7.4.

7.2. For the purposes of heading Nos. 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process¹;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerization;
- (h) alkylation;
- (ij) isomerization;
- (k) in respect of heavy oils falling of heading No. ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);
- (l) in respect of products falling of heading No. 2710 only, deparaffining by a process other than filtering;
- (m) in respect of heavy oils falling of heading No. ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250° C with the use of a catalyst, other than to effect desulphurization, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No. ex 2710 (e.g. hydrofinishing or decolorization) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (n) in respect of fuel oils falling of heading No. ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distil, by volume, including losses, at 300° C by the ASTM D 86 method;
- (o) in respect of heavy oils other than gas oils and fuel oils falling of heading No. ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.

7.3 For the purposes of heading Nos. ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur content, any combination of these operations or like operations do not confer origin.

¹ See Introductory note 7.4.

- 7.4 Redistillation by a very thorough fractionation process means distillation (other than topping) by a continuous or batch process employed in industrial installations using distillates of subheading Nos. 2710 00, 2711 11, 2711 12 to 2711 19, 2711 21 and 2711 29 (other than propane of a purity of 99 per cent or more) to obtain:

Isolated high-purity hydrocarbons (90 per cent or more in the case of olefins and 95 per cent or more in the case of other hydrocarbons), mixtures of isomers having the same organic composition being regarded as isolated hydrocarbons.

Only those process by means of which at least three different products are obtained are admissible, but this restriction does not apply in any instance where the process consists in the separation of isomers. In so far this concerns xylenes, ethylbenzene is included with xylene isomers;

Products of subheading Nos. 2707 10 to 2707 30, 2707 50 and 2710 00:

- (a) with no overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 60° C between the temperatures at which 5 and 90 per cent by the volume (including losses) distil by the ASTM D 86-67 method (re-approved 1972);
- (b) with an overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 30° C between the temperatures at which 5 and 90 per cent by volume (including losses) distil by the ASTM D 86-67 method (re-approved 1972).

**LIST OF WORKING OR PROCESSING REQUIRED TO BE CARRIED OUT ON
NON-ORIGINATING MATERIALS IN ORDER THAT THE PRODUCT
MANUFACTURED CAN OBTAIN ORIGINATING STATUS**

The products mentioned in the list may not all be covered by the Decision. It is therefore necessary to consult the other parts of the Decision

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
Chapter 01	Live animals	All the animals of Chapter 1 used must be wholly obtained	
Chapter 02	Meat and edible meat offal	Manufacture in which all the materials of Chapters 1 and 2 used must be wholly obtained	
Chapter 03	Fish and crustaceans, molluscs and other aquatic invertebrates	Manufacture in which all the materials of Chapter 3 used must be wholly obtained	
ex Chapter 04 0403	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for: Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa	Manufacture in which all the materials of Chapter 4 used must be wholly obtained. Manufacture in which: - all the materials of Chapter 4 used must be wholly obtained; - any fruit juice (except those of pineapple, lime or grapefruit) of heading No 2009 used must already be originating; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
ex Chapter 05 ex 0502	Products of animal origin, not elsewhere specified or included; except for: Prepared pigs', hogs' or boars' bristles and hair	Manufacture in which all the materials of Chapter 5 used must be wholly obtained Cleaning, disinfecting, sorting and straightening of bristles and hair	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3) or (4)	
Chapter 06	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	Manufacture in which:	
		- all the materials of Chapter 6 used must be wholly obtained;	
		- the value of all the materials used does not exceed 50% of the ex-works price of the product	
Chapter 07	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used must be wholly obtained	
Chapter 08	Edible fruit and nuts; peel of citrus fruits or melons	Manufacture in which:	
		- all the materials of Chapter 8 used must be wholly obtained and	
		- the value of any materials of Chapter 17 used does not exceed 30 % of the value of the ex-works price of the product	
ex Chapter 09	Coffee, tea, maté and spices; except for:	Manufacture in which all the materials of Chapter 9 used must be wholly obtained	
0901	Coffee, whether or not roasted or decaffeinated; coffee husks and skins; coffee substitutes containing coffee in any proportion	Manufacture from materials of any heading	
0902	Tea, whether or not flavoured	Manufacture from materials of any heading	
ex 0910	Mixtures of spices	Manufacture from materials of any heading	
Chapter 10	Cereals	Manufacture in which all the materials of Chapter 10 used must be wholly obtained	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
ex Chapter 11	Products of the milling industry; malt; starches; inulin; wheat gluten; except for:	Manufacture in which all the cereals, edible vegetables, roots and tubers of heading No 0714 or fruit used must be wholly obtained	
ex 1106	Flour, meal and powder of the dried, shelled leguminous vegetables of heading No 0713	Drying and milling of leguminous vegetables of heading No 0708	
Chapter 12	Oils seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture in which all the materials of Chapter 12 used must be wholly obtained	
1301	Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams)	Manufacture in which the value of any materials of heading No 1301 used may not exceed 50% of the ex-works price of the product	
1302	Vegetable saps and extracts; pectic substances, pectinates and pectates; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products: - Mucilages and thickeners, modified, derived from vegetable products - Other	Manufacture from non-modified mucilages and thickeners Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3) or (4)	
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included	Manufacture in which all the materials of Chapter 14 used must be wholly obtained	
ex Chapter 15	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetables waxes; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
1501	Pig fat (including lard) and poultry fat, other than that of heading No 0209 or 1503: - Fats from bones or waste	Manufacture from materials of any heading except those of heading Nos 0203, 0206 or 0207 or bones of heading No 0506	
	- Other	Manufacture from meat or edible offal of swine of heading No 0203 or 0206 or of meat and edible offal of poultry of heading No 0207	
1502	Fats of bovine animals, sheep or goats , other than those of heading No 1503 - Fats from bones or waste	Manufacture from materials of any heading except those of heading Nos 0201, 0202, 0204 or 0206, or bones of heading No 0506	
	- Other	Manufacture in which all the materials of Chapter 2 used must be wholly obtained	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified: - Solid fractions - Other	Manufacture from materials of any heading including other materials of heading No 1504	Manufacture in which all the materials of Chapters 2 and 3 used must be wholly obtained
ex 1505	Refined lanolin	Manufacture from crude wool grease of heading No 1505	
1506	Other animal fats and oils and their fractions, whether or not refined, but not chemically modified: - Solid fractions - Other	Manufacture from materials of any heading including other materials of heading No 1506	Manufacture in which all the materials of Chapter 2 used must be wholly obtained
1507 to 1515	Vegetable oils and their fractions: - Soya, ground nut, palm, copra, palm kernel, babassu, tung and oiticica oil, myrtle wax and Japan wax, fractions of jojoba oil and oils for technical or industrial uses other than the manufacture of foodstuffs for human consumption	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
1516	- Solid fractions except for that of jojoba oil - Other Animal or vegetable fats and oils and their fractions; partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinized, whether or not refined, but not further prepared	Manufacture from other materials of heading No 1507 to 1515 Manufacture in which all the vegetable materials used must be wholly obtained Manufacture in which: - all the materials of Chapter 2 used must be wholly obtained; - all the vegetable materials used must be wholly obtained. However, materials of headings Nos 1507, 1508, 1511 and 1513 may be used

(1)	(2)	(3)	or (4)
ex 7107, ex 7109 and ex 7111	- Unwrought	Manufacture from materials not classified within heading No 7106, 7108 or 7110 or Electrolytic, thermal or chemical separation of precious metals of heading No 7106, 7108 or 7110 or Alloying of precious metals of heading No 7106, 7108 or 7110 with each other or with base metals	
	- Semi-manufactured or in powder form	Manufacture from unwrought precious metals	
7116	Metals clad with precious metals, semi-manufactured	Manufacture from metals clad with precious metals, unwrought	
7117	Articles of natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed)	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	
	Imitation jewellery	Manufacture in which all the materials used are classified within a heading other than that of the product or Manufacture from base metal parts, not plated or covered with precious metals, provided the value of all the materials used does not exceed 50% of the ex-works price of the product.	
ex Chapter 72	Iron and steel; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
7207	Semi-finished products of iron or non-alloy steel	Manufacture from materials of heading No 7201, 7202, 7203, 7204 or 7205	
7208 to 7216	Flat-rolled products, bars and rods, angles, shapes and sections of iron or non-alloy steel	Manufacture from ingots, other primary forms or semi-finished products of heading No 7206 or 7207	
7217	Wire of iron or non-alloy steel	Manufacture from semi-finished materials of heading No 7207	
ex 7218, 7219 to 7222	Semi-finished products, flat-rolled products, bars and rods, angles, shapes and sections of stainless steel	Manufacture from ingots or other primary forms of heading No 7218.	
7223	Wire of stainless steel	Manufacture from semi-finished materials of heading No 7218	
ex 7224	Semi-finished products	Manufacture from ingots or other primary forms of heading No 7206, 7218 or 7224	
7225 to 7228	Flat-rolled products, hot-rolled bars and rods, in irregularly wound coils; angles, shapes and sections, of other alloy steel; hollow drill bars and rods, of alloy or non-alloy steel	Manufacture from ingots, other primary forms or semi-finished products of heading No 7206, 7207, 7218 or 7224	
7229	Wire of other alloy steel	Manufacture from semi-finished materials of heading No 7224	
ex Chapter 73	Articles of iron or steel; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex 7301	Sheet piling	Manufacture from materials of heading No 7206	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
7302	Railway or tramway track construction materials of iron or steel; rails, checkrails and rackrails, switch blades, crossing frogs, point rods and other crossing pieces, sleepers (cross-ties), fish-plates, chairs, chair wedges, sole plates (base plates), rail clips, bedplates, ties and other material specialized for jointing or fixing rails	Manufacture from materials of heading No 7206	
7304, 7305 and 7306	Tubes, pipes and hollow profiles, of iron (other than cast iron) or steel	Manufacture from materials of heading No 7206, 7207, 7218 or 7224	
ex 7307	Tube or pipe fittings of stainless steel (ISO No X5CrNiMo 1712), consisting of several parts	Turning, drilling, reaming, threading, deburring and sandblasting of forged blanks the value of which does not exceed 35% of the ex-works price of the product	
7308	Structures (excluding prefabricated buildings of heading No 9406) and parts of structures (for example, bridges and bridge-sections, lock-gates, towers, lattice masts, roofs, roofing frameworks, doors and windows and their frames and thresholds for doors, shutters, balustrades, pillars and columns), of iron or steel; plates, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of iron or steel	Manufacture in which all the materials used are classified within a heading other than that of the product. However, welded angles, shapes and sections of heading No 7301 may not be used	
ex 7315	Skid chain	Manufacture in which the value of all the materials of heading No 7315 used does not exceed 50% of the ex-works price of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
7321	Stoves, ranges, grates, cookers (including those with subsidiary boilers for central heating), barbecues, braziers, gas rings, plate warmers and similar nonelectric domestic appliances and parts thereof, of iron or steel	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex Chapter 74	Copper and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
7401	Copper mattes; cement copper (precipitated copper)	Manufacture in which all the materials used are classified within a heading other than that of the product.	
7402	Unrefined copper; copper anodes for electrolytic refining	Manufacture in which all the materials used are classified within a heading other than that of the product	
7403	Refined copper and copper alloys, unwrought: - Refined copper - Copper alloys and refined copper containing other elements	Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture from refined copper, unwrought, or waste and scrap of copper	
7404	Copper waste and scrap	Manufacture in which all the materials used are classified within a heading other than that of the product	
7405	Master alloys of copper	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
ex Chapter 75	Nickel and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
7501 to 7503	Nickel mattes, nickel oxide sinters and other intermediate products of nickel metallurgy; unwrought nickel; nickel waste and scrap	Manufacture in which all the materials used are classified within a heading other than that of the product.	
ex Chapter 76	Aluminium and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
7601	Unwrought aluminium	Manufacture by thermal or electrolytic treatment from unalloyed aluminium or waste and scrap of aluminium	
7602	Aluminium waste or scrap	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex 7616	Aluminium articles other than gauze, cloth, grill, netting, fencing, reinforcing fabric and similar materials (including endless bands) of aluminium wire, and expanded metal of aluminium	Manufacture in which: - all the materials used are classified within a heading other than that of the product. However, gauze, cloth, grill, netting, fencing, reinforcing fabric and similar materials (including endless bands) of aluminium wire, or expanded metal of aluminium may be used; - the value of all the materials used does not exceed 50% of the ex-works price of the product

Chapter 77	Reserved for possible future use in HS		
ex Chapter 78	Lead and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
7801	Unwrought lead: - Refined lead - Other	Manufacture from "bullion" or "work" lead Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading No 7802 may not be used	
7802	Lead waste and scrap	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex Chapter 79	Zinc and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
7901	Unwrought zinc	Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading No 7902 may not be used	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3) or (4)	
7902	Zinc waste and scrap	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex Chapter 80	Tin and articles thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
8001	Unwrought tin	Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading No 8002 may not be used	
8002 and 8007	Tin waste and scrap; other articles of tin	Manufacture in which all the materials used are classified within a heading other than that of the product	
Chapter 81	Other base metals; cermets; articles thereof: - Other base metals, wrought; articles thereof - Other	Manufacture in which the value of all the materials classified within the same heading as the product used does not exceed 50% of the ex-works price of the product Manufacture in which all the materials used are classified within a heading other than that of the product	
ex Chapter 82	Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8206	Tools of two or more of the heading Nos 8202 to 8205, put up in sets for retail sale	Manufacture in which all the materials used are classified within a heading other than heading Nos 8202 to 8205. However, tools of heading Nos 8202 to 8205 may be incorporated into the set provided their value does not exceed 15% of the ex-works price of the set	
8207	Interchangeable tools for hand tools, whether or not power-operated, or for machine-tools (for example, for pressing, stamping, punching, tapping, threading, drilling, boring, broaching, milling, turning, or screwdriving), including dies for drawing or extruding metal, and rock drilling or earth boring tools	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	
8208	Knives and cutting blades, for machines or for mechanical appliances	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	
ex 8211	Knives with cutting blades, serrated or not (including pruning knives), other than knives of heading No 8208	Manufacture in which all the materials used are classified within a heading other than that of the product. However, knife blades and handles of base metal may be used	
8214	Other articles of cutlery (for example, hair clippers, butchers' or kitchen cleavers, choppers and mincing knives, paper knives); manicure or pedicure sets and instruments (including nail files)	Manufacture in which all the materials used are classified within a heading other than that of the product. However, handles of base metal may be used	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8215	Spoons, forks, ladles, skimmers, cake-servers, fish-knives, butter-knives, sugar tongs and similar kitchen or tableware	Manufacture in which all the materials used are classified within a heading other than that of the product. However, handles of base metal may be used	
ex Chapter 83	Miscellaneous articles of base metal; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
8301	Padlocks and locks (key, combination or electrically operated), of base metal; clasps and frames with clasps, incorporating locks, of base metal; keys and parts of any of the foregoing articles, of base metal	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex 8302	Other mountings, fittings and similar articles suitable for buildings, and automatic door closers	Manufacture in which all the materials used are classified within a heading other than that of the product. However, the other materials of heading No 8302 may be used provided their value does not exceed 20% of the ex-works price of the product	
ex 8306	Statuettes and other ornaments, of base metal	Manufacture in which all the materials used are classified within a heading other than that of the product. However, the other materials of heading No 8306 may be used provided their value does not exceed 30% of the ex-works price of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
ex Chapter 84 ¹	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8402	Steam or other vapour generating boilers (other than central heating hot water boilers capable also of producing low pressure steam); super heated water boilers	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8403 and ex 8404	Central heating boilers other than those of heading No 8402 and auxiliary plant for central heating boilers	Manufacture in which all the materials used are classified within a heading other than heading No 8403 or 8404	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product
8406	Steam turbines and other vapour turbines	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8407	Spark-ignition reciprocating or rotary internal combustion piston engines	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product ²	
8408	Compression-ignition internal combustion piston engines (diesel or semi-diesel engines)	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product ²	
8409	Parts suitable for use solely or principally with: - engines of heading No 8407 or 8408, to be used in vehicles of Chapter 87	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

¹ See Note 10 Appendix II(a) for heading No ex 8401 (nuclear fuel elements).

8456 to 8466	Machine-tools and machines and their parts and accessories of heading Nos. 8456 to 8466.	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8469 to 8472	Office machines (for example, typewriters, calculating machines, automatic data processing machines, duplicating machines, stapling machines)	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8480	Moulding boxes for metal foundry; mould bases; moulding patterns; moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials, rubber or plastics	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	
8481	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats or the like, including pressure-reducing valves and thermostatically controlled valves; parts thereof	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8482	Ball or roller bearings	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
ex 8483	Transmission shafts (including camshafts and crankshafts) and cranks; bearing housing, and plain shaft bearings; gears and gearing; ball screws, gear boxes and other speed changers, including torque converters; flywheels and pulleys, including pulley blocks; clutches and shaft couplings (including universal joints), intended for use in vehicles of Chapter 87	Manufacture in which all the materials used are classified within a heading other than that of the product, except for heading No 8482	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product
8484	Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up in pouches, envelopes or similar packings; mechanical seals	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8485	Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
ex Chapter 85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8501	Electric motors and generators (excluding generating sets)	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8503 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8502	Electric generating sets and rotary converters	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8501 or 8503, taken together, are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 8504	- Power supply units for automatic data-processing machines	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8508	Electromechanical tools for working in the hand with self-contained electric motor, parts thereof	Manufacture in which all the materials used are classified within a heading other than that of the product, except for materials of heading Nos 6804, 8202, 8207, 8208, 8466, 8467, 8501 and 8548	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
8509	Electromechanical domestic appliances, with self-contained electric motor, parts thereof: - Electromechanical domestic appliances, with self-contained electric motor,	Manufacture in which all the materials used are classified within a heading other than that of the product, except for materials of heading No 8501	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

8518	Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; head-phones, earphones and combined microphone/speaker sets; audio-frequency electric amplifiers; electric sound amplifier sets; parts thereof, except for : - Head-phones, earphones and combined microphone/speaker sets; parts thereof - Other	Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product
8519	Turntables (record-decks), record-players, cassette-players and other sound reproducing apparatus, not incorporating a sound recording device	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8520	Magnetic tape recorders and other sound recording apparatus, whether or not incorporating a sound reproducing device	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8521	Video recording or reproducing apparatus, whether or not incorporating a video tuner	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8522	Parts and accessories suitable for use solely or principally with the apparatus of heading Nos 8519 to 8521	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8523	Prepared unrecorded media for sound recording or similar recording of other phenomena, other than products of Chapter 37	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8524	Records, tapes and other recorded media for sound or other similarly recorded phenomena, including matrices and masters for the production of records, but excluding products of Chapter 37: - Matrices and masters for the production of records - Other	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8523 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8525	Transmission apparatus for radio-telephony, radio-telegraphy, radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras; still image video cameras and other video camera recorders	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8526	Radar apparatus, radio navigational aid apparatus and radio remote control apparatus	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8527	Reception apparatus for radio-telephony, radio-telegraphy or radio broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock - Radio broadcast receivers not capable of operating without an external source of power, of a kind use in motor vehicles, including apparatus capable of receiving also radio-telephony or radio-telegraphy, without laser reading system - Other	Manufacture in which all the materials used are classified within a heading other than that of the product, except for heading Nos 8518 and 8529 Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8528	Reception apparatus for television, whether or not incorporating radio broadcast receivers or sound or video recording or reproducing apparatus; video monitors and video projectors	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8529	Parts suitable for use solely or principally with the apparatus of heading Nos 8525 to 8528: - Suitable for use solely or principally with video recording or reproducing apparatus - Other	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8535 and 8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8538 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading No 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading No 8517	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8538 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 8541	Diodes, transistors and similar semi-conductor devices, except wafers not yet cut into chips	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8542	Electronic integrated circuits and microassemblies	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8541 or 8542, taken together, are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8544	Insulated (including enamelled or anodised) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8546	Electrical insulators of any material	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8547	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly other than insulators of heading No 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating material	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS Heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)
8548	Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
ex Chapter 86	Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds; except for:	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8608	Railway or tramway track fixtures and fittings; mechanical (including electro-mechanical) signalling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex Chapter 87 ¹	Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof; except for:	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8708	Parts and accessories of the motor vehicles of headings 8701 to 8705: - Safety seat belts	Manufacture in which all the materials used are classified within a heading other than that of the product, except for materials of heading Nos 5806 and 6307 and Chapter 73	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

¹ See Note 12 Appendix II(a).
