***Request for Confidentiality**

- Open version
- Open and sensitive version

Reason for confidentiality treatment:

- The sensitive version of the form contains confidential information by nature, such as sales volumes and prices of specific product(s), which is business sensitive and company specific. Disclosing this information to other interested parties would give them an unwarranted competitive advantage vis-a-vis our company. Therefore, I would like to request confidential treatment. A meaningful non-confidential version is provided together with this request.
- The sensitive version of the form contains confidential information due to the following reasons. Therefore, I would like to request confidential treatment. A meaningful non-confidential version is provided together with this request.

This form is designed to assist exporting producers in the People's Republic of China in responding to the request for input information made in point 5.3.2 of the Notice of Initiation.

2. INFORMATION ON THE INPUTS USED BY YOUR COMPANY AND RELATED COMPANIES

Please list all materials (raw and processed) and energy used in the production of the product under review as well as all by-products and waste that are sold or (re)introduced in the production process of the product under review. Express each input value (materials and energy) as a percentage¹ of the total cost of manufacturing in local currency during the investigation period indicated in Section 5.1 of the Notice of Initiation. Where appropriate, provide the corresponding Harmonised System (HS) code² for each of the items inserted in the tables below. Please fill in a separate Annex for each of the related companies that produce the product under investigation in case the production process differs.

¹ For the purpose of this form, an estimate of the percentage of total COM can be provided if the exact percentage is not readily available within the deadline for the response to the form. Note that the exact percentage will have to be provided in your response to the exporting producer questionnaire, if any.

² The Harmonized Commodity Description and Coding System generally referred to as "Harmonized System" or simply "HS" is a multipurpose international product nomenclature developed by the World Customs Organization (WCO).
