2. INFORMATION ON THE INPUTS USED BY YOUR COMPANY AND RELATED COMPANIES

Please provide a short description, by attaching file(s) under point 3, of the production process of the product under investigation. Please list all materials (raw and processed) and energy used in the production of the product under investigation as well as all by-products and waste that are sold or (re) introduced in the production process of the product under investigation. Please attach file(s), if there are not enough lines in the table. Where appropriate, provide the corresponding Harmonised System (HS) classification code¹ for each of the items inserted in the two tables. Please fill in a separate online form on inputs for each of the related companies that produce the product under investigation in case the production process differs. Related companies that are involved in the manufacturing of upstream inputs used in the production of the product under investigation shall also fill in a separate online form and identify the supplier(s).

¹ The Harmonized Commodity Description and Coding System generally referred to as "Harmonized System" or simply "HS" is a multipurpose international product nomenclature developed by the World Customs Organization (WCO).
